

## ENJOY THE GARDENING SEASON: INTO THE GREEN!

Here we introduce you to BESSEY tools that will make gardening easier.

Francis Bacon said about gardening: **“Green thumb consists of attention and care.”** Attention and care are important prerequisites for successfully creating one’s own garden or balcony. At least as important, however, are reliable and versatile tools that provide perfect support during the gardening season.

### Multi-purpose cutters D48

Simply

cutting

everything!

No matter what materials need to be cut: Our multi-purpose cutters are the perfect helpers for indoors and outdoors! Our D48 has edges with serrations for slip-proof working and the blades are made of stainless steel. These cutters will accompany you for a long time and reliably in the garden. For those who cut a lot, we recommend the version with ERGO-handle for a reduced hand fatigue: Multi-purpose cutters D47-2/D48-2

**Perfect for cutting hoses, ropes, flowers ...**

## ENJOY THE GARDENING SEASON: INTO THE GREEN!

Here we introduce you to BESSEY tools that will make gardening easier.

### Spring clamps Clippix XC

The spring clamps from BESSEY are small but mighty. They fit perfectly in the hand and ensure optimum handling at all times. Even with large clamping widths, you can always clamp consistently and powerfully with one hand.

And thanks to the infinitely variable adjustment options and the protective caps, even the most sensitive workpieces are effectively protected. It's not just the size that counts!

**Perfect for quick fixing.**

### One-handed clamps series EZ

**PRODUCT OF THE YEAR 2022:** Our new EZ one-handed clamps series was honored as **PRODUCT OF THE YEAR 2022** by Heimwerker Praxis, the test magazine for everything to do with tools, construction and garden.

**Perfect for building your own outdoor kitchen or garden furniture!**

### Telescopic drywall support STE with pump grip

Stable, resilient, can be used with one hand: these are the features of the GS-certified STE series telescopic drywall support. The in-house development from BESSEY also saves time and money thanks to the integrated pump mechanism and quick-slide button.

**Perfect for pergola construction!**
