

## DOCTOR START: there's a doctor even for starting!

The Telwin professional starters range is enhanced by the new Doctor Start 330 and 630.

Doctor  
start

The Doctor Start range has surprisingly multiple functions:

12/24 V **starters** for all types of cars, vans, light goods vehicles, the Doctor Start models hide a highly technological core behind their strong and powerful appearance.

They are electronic **battery chargers** with Pulse Tronic technology for charging and automatic maintenance of WET, GEL, AGM, PbCa and EFB 12/24 V batteries.

## RECOVERY

They maintain a healthy battery using two important **recovery** functions: desulphation and equalisation to regenerate and recover batteries in less than optimal conditions.

## TEST

Intelligent **testers** identify the criticalities of the battery to quickly solve the problem. They test:

- the alternator circuit of the vehicle,
- the starting capacity,
- and the battery charging level status.

## SUPPLY

Not forgetting they become a reliable source of stable power supply during battery changes to protect the electronics on the vehicle.

Thanks to the LCD display, access to all the Doctor Start functions is intuitive and fast, allowing constant monitoring of the various ongoing processes.

**What are you waiting for? Put the Doctor Charge models on your next order to be the first to discover the endless potential.**
