

NEW

RANGES FUEL FREE HIGH PRESSURE CLEANERS

Sustainable Heat

The new IPC high pressure washers equipped with electric boiler are designed to operate effectively in the food sector, wineries, industries and all indoor environments where gas emissions are not allowed.

Extremely reliable because of their exclusive and advanced electronic systems, these machines reduce maintenance costs and ensure the operators to work safely in all environment and conditions.

The stainless steel versions, with flat and shiny covers, are very easy to clean and then particularly recommended also in the food sector.

NEW

RANGES FUEL FREE HIGH PRESSURE CLEANERS

ECO-FRIENDLY APPROACH

PW - E100 is the Eco-Friendly machine, equipped with a three stage high-efficiency boiler made of long lasting and recyclable materials.

Efficient and productive, PW-E100 does not pollute and can work in all those areas where gas emissions in the atmosphere are forbidden.

SUSTAINABLE AND ROBUST

PW-E100 stainless steel is an extremely robust machine, easy to use and with low maintenance costs.

Equipped with a three stage high-efficiency boiler, it is studied to work in indoor environments, especially in the food sector.

With flat and shiny stainless steel covers, this machine is very easy to clean.

STATIONARY VERSION

IWD-E is the stationary version of the high pressure cleaner electrically powered.

Even this model is equipped with a three stage high-efficiency boiler made of long lasting and recyclable materials.

With great performances and easy to maintain, this machine can be equipped with a special stainless steel base for the installation (optional).
