

IPC

STEAM GENERATORS RANGE

From the smallest to the biggest

Steam is the most efficient, effective and cost-saving cleaning method. IPC Group offers a wide range of steam generators to meet all cleaning and sanitizing needs.

Provided with stainless steel components, these machines are sturdy, reliable and long lasting.

STEAM GENERATORS RANGE

From the smallest to the biggest

Performing

SG 08 and SG 10 steam generators are the most maneuverable, compact and easy to use of the range. They are functional for cleaning in the food processing establishments, HoReCa and Retail professional sectors.

Robust

SG 48 is a vacuumated steam generator which combines steam cleaning with detergent spraying. The stainless steel structure and boiler make it a robust and durable machine. It is recommended for the healthcare, craft and small industries.

Versatile

SG 70 is the most powerful steam generator of the IPC range. It is equipped with an extra large stainless steel boiler, a 50 L water tank and a softener device. Designed for an heavy use, it is ideal in the food and mechanical industries, transports and winery.
