## **THREE MULTIFUNCTIONAL CONNECT WORK LIGHTS**

The ultimate work lights for all needs.

We are excited to introduce three new work lights in the CONNECT series, which like all other lamps in the CONNECT series is compatible directly with METABO/CAS 18 V battery system and all other 18 V/20 V battery packs from leading power tool brands by using a CONNECTOR.

The three CONNECT work lights are the ultimate lighting tools for all your needs, making them ideal to use at construction sites, for industry work, maintenance, plumbing etc. These work lights are the perfect tool to help the professional user get the job done quickly and easily.

#### BASIC CONNECT

With its 1000 lumen output and 180° flexibility lamp head the BASIC CONNECT work light provides bright illumination and can easily be positioned to shine exactly where you need it. The flexible lamp head combined with its lightweight and compact design will make sure that this work light will meet the demands of any job. Furthermore, it includes a metal hook that can be turned 360° for flexible suspension.

#### DUO CONNECT

The innovative DUO CONNECT is a real "value-for-money" work light considering the extremely high level of lumen output, up to as much as 2500 lumen. The light output can be adjusted in 2 lighting settings, 50% and 100% depending on the job. The work light has 2 lamp heads with dual axis rotation which means that the lamp heads can be rotated in all directions independent of each other providing completely flexible positioning of the light source.

BASIC CONNECT is a compact and lightweighted work light with a flexible lamp head that can be positioned to illuminate exactly where you need it to, making it perfect for small to medium-sized jobs.

The DUO CONNECT with 2 lamp heads with dual axis rotation, which means that the lamp heads can be rotated in all directions independent of each other providing complete flexibility.
