

UPGRADED ZONE 2 HEADLAMP

Brighter, Longer Lasting and More Feature-Packed than ever before

We are excited to announce the release of the all-new ZONE 2 headlamp, which will replace the old ZONE headlamp. The new ZONE 2 is a rechargeable headlamp providing 200 lumen, which is an increase of 33% from the previous model. The new ZONE 2 headlamp provides optimum work light illuminating the entire field of view, delivering even more value for money for the professional user.

The new ZONE 2 features improved battery technology and now three light settings, including the new “reading mode” providing 20 lumen, that is just enough light to read a manual. This improvement allows for a maximum operating time of 22 hours, making it perfect for any job, big or small.

The design has become more compact, modern, and user-friendly, and the new ZONE 2 also features a battery indicator and upgraded IP rating to IP54.

We encourage you to place your orders through your local Area Sales Manager already now to be among the first to receive the new ZONE 2 headlamp. Availability by the end of February. We are confident that you will love the new features and improved performance of this product.

Why you should choose ZONE 2?

- Lights up your entire field of view
- New reading mode setting
- 22 hours operating time
- Improved battery technology
- Compact and user-friendly design

// Please note, the ZONE 2 is delivered excl. charger.

The light output was increased by 33 % from 150 to 200 lumen.

Reading mode providing 20 lumen, that is just enough light to read a manual.
